

you create the ad guidelines

Do

- Edit and save your file in **CMYK**
- All graphics must be **300dpi at 100% final size**.
- **Outline your text** before saving (select all the layers, click "type" in the menu, select "create outlines").
- **Save your ad file as PDF/x-1a**
- **Clippable coupons:** Make sure coupon offer is on right half side (as shown below) so that customers will not clip two coupons at once.
- **Expiration Date:** Check with RBP, all coupons have the same expiration date. Except for seasonal offers. **You must specify RBP coupon near expiration date so the coupon is trackable.**
- Overprint blacks of 100%.
- **Our rich black build is:** 60 Cyan, 40 Magenta, 100 Black. For large black areas only.

Do Not

- Use RGB or spot colors
- Add additional bleed or print/crop marks to the 1/3 and 2/3 size ad sizes. Please note sizes below.
- Use type smaller than 6 pt on white, 7.25 on dark
- Save as a multiple page PDF - each ad needs to be saved individually.
- Use crop marks

Not needed on your ad

- We distribute in central oregon so you don't need to put Oregon or your zip code on your ad
- Keep your copy light - the busier your ad the less folks want to read it.
